

OPS Group Ltd Gain Quality Accreditation

OPS Group Ltd, an Aberdeen and Dubai based manpower agency is off to a great start this year. Not only is OPS celebrating the first birthday of their initial overseas venture, but it has just passed accreditation to the BS EN ISO 9000:2001 standard.

OPS Group Ltd. and its subsidiary companies have been providing a complete range of personnel services specifically geared to the requirements of the International Oil and Gas Industry for over 15 years. The Group comprises four specialist

divisions, **OPS** and **Coiltec** providing personnel globally to clients on an ad hoc or permanent basis, **Maslow** offering Recruitment Services and **TecSupport** specializing in training

In 2005, with business going well in Aberdeen it was decided to open a Dubai branch in order to promote its truly 'global' image. Since opening, the Dubai branch has been providing great customer links to the Middle East and Far East as well as to Australasian based clients. This is just what was intended.

With its global offices in place, the next goal for OPS was to become an accredited company. The Company has never lost sight of the importance it's customers place on quality service. Managing Director Steve Pryor says "We hope that this Accreditation will be seen as a testament to our teams tireless efforts to improve the service we offer to our customers."
