

## OPS Group Ltd Gain Quality Accreditation

It is with great pleasure that we can announce that OPS Group Ltd is now an ISO registered company having passed both the pre-assessment and full assessment in May 2006.

Throughout the implementation of our new Quality system, the input and involvement of our staff was invaluable. With everyone working together we were able to 'hone in' on our procedures and issues to get the best results.

OPS Managing Director Steve Pryor says "It was our goal to achieve accreditation by Summer 2006 and through the hard work and loyalty of our team we have achieved this within our forecasted time. Gaining accreditation was an intense learning curve which we are sure will help us perform better and more successfully for our customers in the future".
